Follow us on

Early access to nutrients in balanced Proportion encourages better growth and performance of chicks. All the young chicks cannot reach the feeder and pick up feed ingredients optimally. A neonatal nutrient supplement, especially through water, helps in uniform growth of the chicks.

HIIGROW is a scientific combination of essential Vitamins, Liver extract with photogenic growth stimulant.

HIIGROW is a perfect Nutritional Formula for optimum growth and liveability of young chicks. Water soluble nutrients in **HIIGROW** maintain nutritional requirements of birds during low feed in-take conditions of disease and convalescence.

HIIGROW is a unique combinations of pre-digested hydrolysed protein, methyl donor, essential amino acids, vitamins, energy mobilizer and energy co-factors in optimally balanced proportion.

USAGE :

Improves growth and production performances.

Optimises nutrients, digestion and assimilation.

Brings back birds into optimum feed utilisation & production after convalescence.

Brings layer growers & breeders into optimum sexual maturity.

WATER INCLUSION RATE :

20 ml. per 100 kg. body weight.

PRESENTATION:

1 Ltr, 5 Ltr & 20 Ltr Jar
